

For All to Enjoy

General Information

The staff at Saguaro National Park invites all visitors to enjoy the sights, sounds and smells of the Sonoran Desert. We are continually working to improve the accessibility of our facilities and interpretive programs, but we need your help.

The best ideas for accessibility often come from folks like yourself. If you have a suggestion for improving your national park, stop by one of the visitor centers for a visitor comment card. We value your input and look forward to hearing from you.

Visitor Centers

Saguaro National Park is divided into two districts: the Tucson Mountain District, located west of Tucson, and the Rincon Mountain District, located east of Tucson. Both districts have a visitor center.

Accessible features found at both visitor centers include designated parking spaces, accessible restrooms and drinking fountains, paved cactus gardens, one loaner wheelchair and a captioned orientation program.

The Tucson Mountain District also offers a flowing text device for their orientation program.

Interpretive Programs

Interpretive programs are offered throughout the year, with additional programs offered in the busy winter season (November through April). Many of these programs are held in accessible areas in or near the visitor centers. If you would like more information, please call between 9:00 a.m - 5:00 p.m., Mountain Standard Time.

**Rincon Mountain District**
